You Try It!
Lesson Outline for Spoken Rhyme Production

Objective: Students will produce a word that rhymes with a given word.

1. Review rhyming; demonstrate two words that rhyme. Teacher says two rhyming words and asks a student to repeat the words. Use response cards after students repeat the words aloud.

2. Explain the task. Students will say a word that rhymes with a given word.

3. Demonstrate the task. Teacher says a name and then says a word that rhymes with the name. Example: “Terry, merry.” Have students repeat the rhyming words.

4. Give each student a prepared card with their photo on it. Ask a student to show their card and say their name – first, middle, or last – and say a word that rhymes with it. Remember, nonsense words are acceptable.
   OR
   Ask a student to stand when they hear a word that rhymes with their name. Student then repeats their name and the word that rhymes with it.

5. Give other students a turn. Invite students to help their classmates think of rhymes.
